Name : INBARAJAN

PROFESSIONAL SUMMARY

I am a highly motivated Full-Stack Developer with over **3 years of experience** building scalable and user-friendly web applications. Proficient in JavaScript, TypeScript, React, Node.js, and MongoDB, I have successfully contributed to multiple projects, including e-commerce platforms, internal CRM tools, and SaaS products. With a strong background in front-end and back-end development, I specialise in creating seamless user experiences and optimising performance across the stack.

Known for my attention to detail, problem-solving skills, and ability to work effectively in team environments, I thrive in fast-paced settings that require creative thinking and continuous learning.

PROFESSIONAL EXPERIENCE

WizInoa - Current

Designation : Software Engineer

HRMS (Human Resource Management System) application :

- I developed a Human Resource Management System (HRMS) aimed at streamlining HR operations, such as employee management, attendance tracking, payroll processing, and recruitment.

Tools and Technologies: For the front-end, I used React.js along with TypeScript to ensure a scalable and maintainable codebase. On the back-end, We built the API using Node.js and Express, with MongoDB as the database for storing employee records, payroll data, and attendance logs. The application was deployed on AWS, using S3 for file storage and CloudFront for fast delivery. We also integrated JWT for secure user authentication and role-based access control.

Summary

Senior System Analyst with over 11 years of experience in Data Engineering, specializing in Azure and AWS. Expertise in Legacy Modernization, Generative AI, and advanced technologies such as RAG, LLM Fine Tuning, and Langchain. Proficient in Hybrid Cloud Data Architecture and Mainframe technologies. Committed to delivering innovative solutions that drive business success and operational efficiencies.

Skills

Data Engineering | Azure | AWS | Generative AI | Legacy Modernization | COBOL | DB2 | VSAM | CICS | ETL | SQL | Python

Professional Experience

Senior System Analyst, IBM	Nov 2021 – Present
• Serve as Hybrid Data Architect for a healthcare client, managing data workflows using AWS Glue and Azure Data Factory • Perform complex ETL processes and data integrations • Utilize AWS Athena, Apache Kafka, Airflow, Azure Data Lake Storage, Python, and SQL for large-scale data processing • Interface with CICS web services and DB2 mainframe systems • Lead data-related tasks, ensuring smooth data flow and accurate insights for decision-making	
Technical Lead (Data Engineering), HCLTech	Jan 2021 – Oct 2021
• Managed data integration using AWS Glue and mainframe technologies • Led initiatives to streamline data workflows and ensure accurate data integration • Oversaw ETL tasks, leveraging cloud solutions and traditional mainframe technologies • Enhanced data management processes and improved data quality	
Senior Associate, Cognizant	Jul 2019 – Dec 2020
• Migrated legacy data to SQL Server using SSIS • Utilized JCL, VSAM, COBOL, and DB2 for data extraction from mainframe systems • Employed Python for data cleaning and transformation • Orchestrated ETL processes using SQL Server Integration Services (SSIS)	
Associate - Projects, Cognizant	Aug 2016 – Jul 2019
• Played a crucial role in migrating legacy data for a US telecom client • Used JCL, VSAM, COBOL, and DB2 for data extraction from mainframe systems • Leveraged Python for data transformation and SSIS for ETL processes	
Application Developer, IBM	Jun 2013 – Jul 2016
• Worked as a Mainframe Developer for a US-based insurance client • Gained hands-on experience with Mainframe Assembler, CICS, COBOL, VSAM, and DB2 • Focused on Data Conversion and Data Integration for billing applications • Developed expertise in batch and real-time data processing methods

A Two day National Level Online Workshop On Exploring Cutting –

Edge AI-Tools: Google Gemini, Meta AI and Perplexity Report

1. Organizing Department: Computer Science (Artificial Intelligence)

2. Name of the Programme: Two Days Online Workshop on Exploring Cutting Edge –
Google Gemini, Meta AI and Perplexity

Type of Programme	: Online Workshop
Date of Programme	: 22 nd & 23 rd October 2024
Venue	: Online (Microsoft Teams)
Participants	: 182 Participants from National Level

3. About the Programme

A Two day National Level Online Workshop was held on 22.10.24 & 23.10.24 in the Department of Artificial Intelligence, MTNC. We sincerely thank Our President Mr.S Rajagopal sir, Our Secretary Mr.M.Vijayaragavan sir, Our Principal Dr. A. Ramasubbiah sir and Our Director Mr.C.Prabhu sir to accept and permit us to conduct the programme with a great support. Mr.E. Arul Benjamin Chandru, Senior System Analyst, IBM, Chennai, was invited as the resource person who addressed 161 participants (Faculty members and students) from various institutions in and around Tamilnadu and Nationwide.

Ms.N.Hemavathi : Asst.Professor, Department of Computer Science started the online session via Microsoft teams . Ms.R.Vasuki, Head, Department of Computer Science (Artificial intelligence) delivered the welcome address. Felicitation Address was given by our Principal Dr. A.Ramasubbiah sir to the gathering along with him Dr.G.Devika , Head , Department of Computer Science also felicitated the gathering . Dr.S.Veerapandi , Asst. Professor, Department of Computer Science Introduced the Resource Person. The Session was started by the resource person Mr.E. Arul Benjamin Chandru, in the Day – 1, he covered Google Gemini and meta AI with demos in a clear presentation lively . Dr.G.Parkavi handled the feedback sessions for Day -1.

The Session on Day-2 was excellently explained by the resource person about the tools Meta AI, Suno, Claude and perplexity with enough demos. The workshop very much satisfied the expectation of the participants and Dr.S.Veerapandi sir delivered the vote of thanks.

Date of the Event: 22.10.2024 & 24.10.2024

Venue: Lab 1

Participants: I B.Sc. CS AI & II B.Sc. CS AI

About the Programme:

The Department of Computer Science with Artificial Intelligence organised a Lumos club association activity – II Quiz Time for I B.Sc. CS AI & II B.Sc. CS AI. The students are played the e-quiz through Quizziz.com. They have enjoyed the quiz and eagerly participated in this learning method.

Outcome of the Programme:

1. Quizzes can help students become more involved and motivated. Game concepts can be used to create fun competitions that can engage students.

2. Students can use quizzes as a self-assessment tool to identify what they need to focus on and how to improve.

REPORT

Organizing Department : Computer Science with AI
Name of the Programme : Code Training in Java
Type of Programme : Skill Development Programme
Date of Programme : 07/01/2025
Venue : Lab 1
Participants : II-B.Sc Cs(AI)
Total number of students : 17

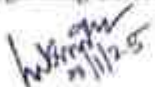

About the Programme:

The Department of Computer Science with Artificial Intelligence organized a Skill Development Programme for students of II-B.Sc. CS (AI). Mr. A.M. Sasikumar, Senior Software Trainer and Developer at Phoenix Softech, Madurai, was the resource person for this programme. Ms. R. Vasuki, Head of the Department of Computer Science with AI, served as the convener of the programme, while Dr. G. Parkavi, Assistant Professor, was the Programme Organizing Secretary who successfully coordinated the event.

The programme began with a welcome address by Ms. R. Sri Miran Alfasa, a second-year B.Sc. CS (AI) student. During the session, the resource person elaborated on various Java programming concepts, including packages, AWT, Servlets, and Applets. He also highlighted practical ways to apply these concepts to innovation processes in software development, enabling students to develop code more effectively.

The programme concluded with a vote of thanks delivered by Mr. P. Bevin Mano, a second-year B.Sc. CS (AI) student. Through this programme, the students enhanced their skills and knowledge, with approximately 17 second-year students benefiting from the session. From this Programme, the students are exposed their skills and knowledge. Around 17 students of second year were benefited.

Total number of students : 25

About the Programme:

The Department of Computer Science with Artificial Intelligence organized Hands on Training for first-year students of I-B.Sc. CS (AI). Ms. R. Vasuki, Head, Department of Computer Science with AI, served as the convener of the programme, while Dr. G. Parkavi, Assistant Professor, Ms M.Sujatha, Assistant Professor was the Programme organizing secretary who successfully coordinated that event. The student seminar on Excel was an insightful session, where each student demonstrated key functions of Excel that are essential for data analysis and management.

Seminar started with an introduction to some of the uses of Microsoft Excel in our everyday life. Sample data were given to all the I B.Sc CS AI to work along with II B.Sc CS AI Students. Basic Excel functions such as aggregate, advanced functions such as VLOOKUP, HLOOKUP, Date functions, Slicing, Pivot tables, 2D and 3D charts with live data mapping, applying data filters, were also covered. J. Mukilan, J. Dharsan, G. Shriman, and T. Palanikumar has actively involved in this seminar.

Report on

Software Testing Life Cycle and Tool Using Jira Workshop

The Department of Artificial Intelligence successfully organized an online workshop on "Software Testing Life Cycle and Tool Using Jira" on January 27, 2025, from 12:00 PM to 1:30 PM for the II CS(AI), II CS A & B, and III B.C.A students. The event commenced with a warm welcome address by Ms. R. Vasuki, Head, Department of Computer Science (Artificial Intelligence), who set the tone for the gathering and highlighted the importance of the session. Ms. R. Sarusakthi, II B.Sc. CS(AI) student, then introduced the esteemed chief guest, Mr. K.R. Suresh Kumar, Co-Founder of BSRI Solutions, Chennai. Mr. K.R. Suresh Kumar, in turn, shared valuable insights on the latest trends in AI, software testing, and the importance of tools like Jira in the software development lifecycle. The session concluded with a vote of thanks by Ms. V. E. Sadhana, II B.Sc. CS(AI) student.

The event aimed at providing an in-depth understanding of the software testing life cycle and the practical usage of Jira as a testing tool. The workshop was held in the Lab1 room, facilitating an interactive learning experience for the participants. The primary focus of the workshop was to explore the various stages of the Software Testing Life Cycle (STLC), which include Requirement Analysis, Test Planning, Test Design, Test Execution, Defect Reporting, and Test Closure. Participants were shown how these phases are interconnected and how proper testing practices can significantly improve the overall quality of the software being developed.

In addition to the theoretical aspects of STLC, the workshop also introduced participants to Jira, a popular project management and issue tracking tool widely used for software testing and bug tracking. He demonstrated how Jira helps in tracking test cases, managing issues, and collaborating within teams efficiently. The tool's features, such as creating test cases, assigning tasks, tracking progress, and managing defects, were explained in detail.

The interactive session provided ample opportunities for the participants to ask questions and clarify their doubts. The success of the event emphasized the significance of incorporating practical knowledge into the academic curriculum, bridging the gap between theory and real-world applications.

REPORT ON DATA PRIVACY DAY

The Department of Computer Science with Artificial Intelligence successfully commemorates Data Privacy Day on 31.1.2025. The theme for Data Privacy Day 2025 was "Take Control of Your Data". Ms. S. Nagajothi, II B.Sc CS AI who highlighted the growing importance of data privacy in today's digital landscape. She emphasized that as we increasingly rely on the internet for both personal and professional activities, safeguarding our personal data has become more critical than ever.

Mr. J. Mukilan followed with a session on two-step authentication (2FA), explaining how this method adds an extra layer of security to online accounts. He encouraged participants to enable 2FA across their accounts to further protect sensitive information and reduce the chances of cyberattacks.

Ms. S. Divya Barathi then took over to explain the concept of cookies and their impact on data privacy. She clarified that cookies are small files used by websites to track user behaviour and store preferences.

Mr. K. Kalicharan provided an insightful explanation of the Data Privacy Act, detailing the rights it grants individuals and the obligations it places on organizations that handle personal data. He highlighted key provisions such as the right to access, modify, and delete personal information, and the requirement for businesses to obtain clear consent from users before collecting their data.

Ms. P. Banupriya, who summarized the discussions and encouraged participants to take proactive steps in securing their online data. She highlighted the importance of staying informed about evolving privacy laws and adopting best practices for data protection. The session concluded with a lively Q&A, where participants shared their concerns and received advice on how to better manage their online security. Data privacy day was successfully equipped attendees with the knowledge to take control of their digital privacy and safeguard their personal information in an increasingly connected world. Program was convened by Ms.R.Vasuki, HOD and Dr.G.Parkavi, Asst.Prof and Ms.M.Sujatha, Asst.Prof.

DEPARTMENT of ARTIFICIAL INTELLIGENCE
ONE DAY WORKSHOP ON "THINK IN OBJECTS:C++"

Date: 12.03.2025

Venue: LAB1

Organized by: Department of Computer Science(Artificial Intelligence)

Guest Speaker: Mr. A. Venkatesh, Technical Head, Vinsup Infotech, Madurai

Participants: 20 students from I B.Sc CS AI.

A one-day workshop on "Think Objects: C++" was successfully conducted on 12.03.2025 at LAB1. The guest speaker for the event was Mr. A. Venkatesh, Technical Head, Vinsup Infotech, Madurai. The event was attended by I B.Sc CS AI students. The students gained an understanding of Object-Oriented Programming (OOP) concepts such as Classes, Objects, Abstraction, Encapsulation, Inheritance, and Polymorphism, both theoretically and practically. They also learned how to improve code readability and reusability in C++ programs.

The workshop received positive feedback from the students. They appreciated the interactive approach, practical examples, and step-by-step guidance. Ms. Nithyasri from I B.Sc CS AI delivered the welcome address, and Divya Bharathi from I B.Sc CS AI introduced the chief guest. The event concluded with a vote of thanks, expressing gratitude to the facilitators, participants, and the organizing team for making the workshop a success.

The overall event was coordinated by Ms. R. Vasuki, Head & Assistant Professor, along with Dr. G. Parkavi and Ms. M. Sujatha, Assistant Professors of AI.
